

Tenable for Stellar Cyber

Improve Incident Response with Security Orchestration, Automation and Response

Business Challenge

Organizations struggle with focus and upkeep on security tools within their security environment, these gaps put them at greater risk and continually grows the threat landscape. Without integrating Tenable's vulnerability data into the Stellar Cyber security orchestration, automation and response platform, organizations are left without a way to utilize automated workflows and maximize resources for accelerated incident response.

Solution

The Stellar Cyber integration with Tenable combines Tenable's Cyber Exposure insights with the Stellar Cyber Platform for complete visibility into an organization's security infrastructure and attack surface. Security and IT teams are provided with management insights, configured workflows and real time dashboards to automate time-intensive, manual processes for streamlined incident response.

Value

The Stellar Cyber integration for Tenable provides the ability to:

- Provide pre-defined parameters for running Vulnerability Management scans without requiring knowledge about Vulnerability Management configuration & internal network infrastructure
- Define approval processes for running one-off infrastructure vulnerability scans
- Allow for the creation of automated workflows across security tools
- Centralize your vulnerability insights by viewing a single dashboard
- Improve vulnerability and asset data from Tenable

Technology Components

- Tenable.sc Version 5.10 or higher
- Stellar Cyber Platform 3.3 or higher

Key Benefits

- **Improve incident** response time
- **Improve processes** with configured workflows
- **Automate** your team's manual tasks
- **Connect** Tenable to disparate security tools

ABOUT TENABLE

Tenable®, Inc. is the Cyber Exposure company. Over 30,000 organizations around the globe rely on Tenable to understand and reduce cyber risk. As the creator of Nessus®, Tenable extended its expertise in vulnerabilities to deliver the world's first platform to see and secure any digital asset on any computing platform. Tenable customers include more than 50 percent of the Fortune 500, more than 30 percent of the Global 2000 and large government agencies. Learn more at www.tenable.com.

ABOUT STELLAR CYBER

Stellar Cyber's Open XDR platform delivers comprehensive, unified security without complexity, empowering lean security teams of any skill to successfully secure their environments. With Stellar Cyber, organizations reduce risk with early and precise identification and remediation of threats while slashing costs, retaining investments in existing tools, and improving analyst productivity, delivering a 20X improvement in MTTD and an 8X improvement in MTTR. The company is based in Silicon Valley. For more information, contact <https://stellarcyber.ai>.
